Bug Report

Bug ID:	BUG_TC_01
Title	Login process stuck on "Loading" for several seconds without redirecting to dashboard
Steps to Reproduce:	1. Open the mobile app. 2. Enter valid credentials and tap the Login button. 3. Observe the login process.
Actual Behavior:	The Login button shows "Loading" for around 15 seconds, then displays a "Login Successful" message, but the user is not redirected to the dashboard.
Expected Behavior:	After tapping the Login button with valid credentials, the app should authenticate the user and redirect to the user dashboard.

Bug Report

Bug ID:	BUG_TC_02
Title	User is logged out unexpectedly after tapping or changing profile picture
Steps to Reproduce:	1. Log in to the mobile app with valid credentials. 2. Navigate to the Profile screen by tapping the profile picture. 3. Attempt to change the profile picture by tapping on it and selecting a new image. 4. After uploading new image tap on profile picture.
Actual Behavior:	The user is unexpectedly logged out after tapping or changing the profile picture.
Expected Behavior:	The user should remain logged in after tapping or updating the profile picture.

Bug Report

Bug ID:	BUG_TC_03
Title	Unnecessary "Create" (Plus) Button Displayed on Profile Screen
Steps to Reproduce:	1. Log in to the mobile app with valid credentials. 2. Tap on the profile picture of an employee from the home screen. 3. It will be redirected to the Profile screen. 4 Observe the plus ("+") icon at the bottom-right corner of the screen.
Actual Behavior:	A plus icon appears on the profile screen, but it is non-functional and does nothing when tapped.
Expected Behavior:	The profile screen should not show the plus button. If shown, it should perform a clear and useful action.

Bug Report

Bug ID:	BUG_TC_04
Title	Missing back button on leave request and attendance request screens
Steps to Reproduce:	1. Log in to the mobile app. 2. Navigate to the Leave Application screen. 2. Tap the plus (+) icon to open the Leave Request form. 3. Similarly, go to the Attendance section and tap the button to open the Attendance Request form. 4. Try to go back to the previous screen.
Actual Behavior:	There is no in-app back button on either screen.
Expected Behavior:	Both screens should have a visible back button allowing users to navigate back within the app.

Bug Report

Bug ID:	BUG_TC_05
Title	Attendance request list fails to show 'no data found' on empty search result
Steps to Reproduce:	1.Log in to the mobile app. 2. Navigate to the My Attendance screen. 3. Use the search bar to enter a value that does not match any record. 4. Observe the table, it displays "No data found" in the first row. 5. Now navigate to the Attendance Request List screen. 6. Use the search bar again to enter a non-matching value. 7. Observe the table's response.
Actual Behavior:	My Attendance screen shows a proper "No data found" message.
Expected Behavior:	Both screens should consistently display a "No data found" message when search results return empty.
